

## **ENVIRONMENTAL POLICY STATEMENT**

Centurion Blast Cleaning Limited is committed to minimising the environmental impact from the company's activities.

We achieve this through the implementation of an effective Environmental Management System complying with ISO14001:2015.

We are committed to complying with legal and other relevant requirements, preventing pollution and continual improvement.

Our Environmental Management System is documented, implemented, maintained and communicated to all employees.

Where we are operating with clients and suppliers we will work with their Environmental Management Representative in achieving shared goals and objectives in line with the client's own systems.

Performance is monitored through a series of Environmental Objectives which are reviewed by the Senior Management Team.

The policy is communicated to all interested parties.
